**First of all, let me thank YOU for your book.** In the body of literature out there dealing with 2012 and transformation, your book is an important contribution. (I have read more than a few.) I saw "Earth 2012, The Ultimate Quest" advertised in "Light of Consciousness." I bought it because it offers a way to find out what part of me stands in the way of bringing out my Authentic Self. (I have not done any psychotherapy or other such work other than one past life regression. I do share the characteristics of Violet Persons.) After a successful career in the corporate world for many years, I find myself on my own going where I know not. I sense that if I can connect with the 'Divine Within', I can get past the paralysis I find myself in. I like your book because:

- Your writing style is approachable and candid.
- The chapters are short and well organized. This makes it easy to not only comprehend the information the first time through, but it is easy to go back and find information again to bring it all together. It is also fun to re-read many times to assimilate the information!
- Your book is both personal and global, approaching the galactic. These are necessary perspectives to keep together in our minds and hearts in these times.
- I sense that your book is giving me a 'shovel' with which to dig into my inner world and see what is there, and perhaps, construct a tunnel of light to where darkness now resides.,

Thank you again Aurora for your book and your gifts of communication! - *Chuck Wright, Chesapeake, Virginia*

**I have read Aurora's first book Earth 2012.** My opinion? It is amazing, it is a treasure, it is true, and it works. If there is one book you should INVEST your time and energy (your pearls) in learning for the times in which we live, it is in Earth 2012: The Ultimate Quest. Aurora is a great writer because the book is easy to read and understand. This is what ... Read More a great writer can do. I can't wait to read her next, newest book. And her music... is Heaven on earth. Skip the Latte this week and get her book and CD. - *Dorlon Peckham*

**Earth 2012 has two major themes.** First, is the precarious situation that exists in our world today as we approach the year 2012, or the end of the Mayan calendar and what this could mean for the earth and all life upon it. More specifically, Dr. Ariel believes the "fate of the world" is in our hands and that we can create or, re create true Heaven on Earth, and avoid all the negative doomsday scenarios that seem to be encroaching on our lives at an increasing rate.

How we can do this brings us to the second theme which is TheQuest™. TheQuest™ is a unique form of psychotherapy that Dr. Ariel has created that allows us to swiftly identify and change all

negative programs we have absorbed into our subconscious, the very same programs that are responsible for the dire state of the world at this time. With this therapy, one can go back and change negative programs or patterns that were handed down from our ancestors, thus reversing much damage that has been done. What's even more exciting is that she offers TheQuest™ as a self healing which can be easily learned and practiced without having to pay a therapist huge amounts of money. Dr. Ariel goes into both these themes with great depth and understanding, leaving the reader (or me at least) thoroughly convinced and motivated.

I liked almost everything about the book. I especially appreciated its positive outlook and creative solutions to the “doomsday scenarios” we are so easily led to believe are approaching in the near future. Without ignoring the negative possibilities we are facing, she kept a powerful positive outlook and offered much to think about and do in the face of our dire situation. EARTH 2012 spoke to me in many ways, voicing things that I had long felt but never was really able to access in a book that I have been trying to write on similar topics. I found reading it to be a powerful, inspiring experience. I certainly learned a lot of things of great value and many changes will result in my life as a direct result of reading this book.

After reading Earth 2012, I wanted to delve deeper into TheQuest™ experience. I went to the web site given in the book and called a phone number there. Low and behold I found myself talking to the author herself in Hawaii, and by the time I hung up I had committed to a two year study with her, that I have embarked upon and am certain will be a life changing experience for me. I would say for certain that Earth 2012 had a huge impact as I am hoping to eventually become a TheQuest™ practitioner.

I have recommended Earth 2012 to several people. I tell people it is a book that can change your life, a must for anyone who is at all concerned about the fate of the earth and the human race. It is fresh and new, easy to read and very convincing.... And... Dr Ariel is there to back up her work 100 percent. - Tanager, Vermont

**Maui Vision Review: October 2008 - Book Review by Marci Winters...**

**Dr. Aurora Juliana Ariel's** *Earth 2012, The Ultimate Quest, How to Find Peace In a World of Chaos* is a book about the powerful planetary shift we are experiencing and our soul's power to lift us to our awakening. The cover art of the book is eye catching, a deep blue image of night, faraway stars fading into a cloudy ocean sky of blue light emerging from the Unknown. Ariel's intention is to help humanity in its evolution of consciousness, to help us unlock the mystery within. The book's focus is on our deep inner process of healing, that will ultimately serve as the catalyst to planetary transformation of consciousness. Our own self-actualization, uncovering our lost identity, our Authentic Self, is imperative to healing our planet.

Like Eckhart Tolle, Ariel envisions a New Earth forming, where Darkness will be transformed and the Earth will realize peace. Being that our internal responses have a profound impact on the world around us, our inner alchemy has a significant relationship with our external life conditions. Real spiritual growth occurs when we change the way we perceive our lives, and recognize that these changes are our opportunities for spiritual transformation.

The book's self-counseling techniques provide a profound tool for self-healing and experiencing deeper levels of well-being. According to Ariel, in each individual's spiritual quest, and our yearning for peace within, is the seed of the miracle of world peace. We are all part of a worldwide awakening, if our hearts are open to our Soul's journey. Introspection, understanding our patterns, finding more meaning in life, Ariel believes is paramount to peace.

An uplifting beautifully written book, with much more than prophecies and predictions, *Earth 2012, The Ultimate Quest*, reminds us of our mission, our destiny, and most importantly, that the world needs us. *Marci Winters is a writer/screenwriter/director/producer.*
