A Scientist in the Laboratory of the Soul, Dr. Ariel's quest to find what is at the heart of suffering, led to a cure. Working with countless clients over many years with miraculous results, Dr. Ariel's landmark discoveries inspired the development of her revolutionary breakthrough Counseling Theory and Practice, TheQuest™. She is now passing this breakthrough Healing System to the layperson as well as to practitioners worldwide.

Dr. Ariel has successfully worked with Youth At Risk, addicts, abusers, and the abused, people with serious illnesses and trauma, and a host of dysfunctional personality traits and life conditions with tremendous results. She found that *addictions could be cured, patterns healed, and issues quickly resolved*, and that *we can change the challenging conditions in our life*. Her pioneering work provides a 'missing piece' that can greatly increase the success rate at rehab centers, prison reform, addiction, abuse, youth at risk, and other programs.

In 2000, Dr. Ariel founded the Institute of Advanced Healing, a Hawaii based non-profit, to bring out TheQuest™ worldwide. In 2005 she created a model chapter in Aspen, Colorado to showcase how TheQuest™ could serve communities around the world. In 2008, she launched TheQuest™ Global Outreach Program to bring TheQuest™ into hospitals, prisons, safe houses, and addiction programs and developed TheQuest™ Master Counselor and Spiritual Leadership certificate training courses.

Inspired to translate her knowledge into healing and life transforming media productions, Dr. Ariel set up her own multimedia company in 2003, which is currently releasing her five collections of music, books, and films. Founder/CEO of AEOS, her love for translating her knowledge into healing inspiring productions led to her 2008 release of the Earth 2012 series and her first solo music CD, *Renaissance of Grace*. In 2009, she released *Earth 2012: Time of the Awakening Soul*, and *Gypsy Soul, Heart of Passion* music CD with Bruce BecVar. A host of exciting music, books, and films are soon to follow.
